RESPONSE TO ELECTION OF SPECIES REQUIREMENT

Commissioner for Patents
P. O. Box 1450
Alexandria, VA 22313

Dear Sir:

In response to the Election of Species Requirement set forth in the Office Action dated July 21, 2004, Applicants hereby elect Species II (Figures 6-9) for prosecution in the present application. Claims 1, 2, and 4-16 read on the elected Species, with Claims 1, 2, and 4-8 being generic.

The present election is being made with traverse. Applicant submits that it is well established that:

If the search and examination of an entire application can be made without **serious burden**, the examiner **must** examine it on the merits, **even though it includes claims to independent or distinct inventions**.

M.P.E.P. § 803 (emphasis added).

All of the claims are directed to an internal combustion engine having a flywheel. A proper search for art related to the elected species would necessarily include the classes and subclasses relevant to a search for the non-elected species. Thus, examination of all the claims would not present a substantial further "serious burden" on the Office.

Appl. No. : 10/692,089
Filed : October 23, 2003

Applicants therefore respectfully request that the present election of species requirement be withdrawn.

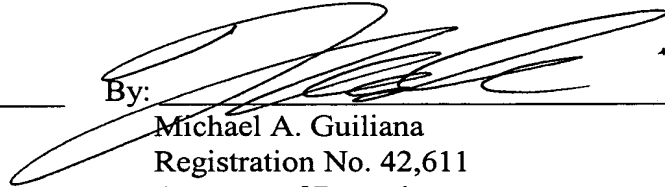

Respectfully submitted,

KNOBBE, MARTENS, OLSON & BEAR, LLP
